THE ARTHRITIS SOCIETY

A Will?

I took care of that years ago.

Exactly. The children were starting high school, you were paying off a mortgage and thinking about a career change. Lots of things were different then.

Now, the children are finishing school, the house is yours, and you're in solid with the company. But your Will hasn't changed to reflect all of this.

This is the time to get everything straight. To incorporate all your plans into a document that guarantees that everything develops in accordance with your wishes.

When you do look over your Will, remember us. The Canadian Cancer Society needs your bequest. The Marathon of Hope laid the foundation for new research inconceivable a few years ago, but to keep it going, we need your help.

Then, one of these days, we'll win the fight against cancer.
